Contact Us

Atlas Cold Chain LLC is a U.S.-based cold-chain infrastructure developer building the next generation of temperature-controlled facilities that power America's food, pharmaceutical, and logistics ecosystems.

The company specializes in the design, construction, and management of high-performance cold storage environments engineered for reliability, efficiency, and long-term operational excellence.

WHO WE ARE

Atlas Cold Chain is a full-service cold-chain infrastructure partner delivering end-to-end solutions—from feasibility and project management to construction oversight and long-term facility optimization. Our expertise spans frozen, chilled, and pharmaceutical-grade environments, enabling businesses to maintain product integrity across every stage of the supply chain.

We operate with a commitment to Safety, Integrity, Quality, Accountability, and Excellence, ensuring every project meets the highest industry standards.

OUR MISSION

Deliver successful cold storage projects through expert coordination, trusted partnerships, and industry-focused project management.

WHAT WE BUILD

Multi-temperature
cold storage warehouses

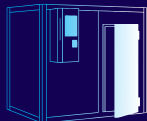

Frozen and chilled
distribution centers

Refrigerated
logistics hubs

Cross-dock
facilities

Blast freezers, ripening rooms,
and processing zones

Automated storage and
retrieval systems (AS/RS)

Energy-efficient refrigeration
and monitoring systems

Each facility is engineered for temperature stability, operational efficiency, and regulatory compliance.

WHAT WE DO

Cold Storage Construction

We support the planning and delivery of temperature-controlled facilities designed for performance, energy efficiency, and long-term reliability.

Our capabilities include:

Freezer room construction

Cooler room Installation

Refrigerated Warehouses

Food distribution centers

Facility expansions and upgrades

Industrial refrigeration systems

Insulated metal panel systems

Walk-in coolers and freezers

Refrigeration Project Management

Managing multiple contractors and technical requirements can be challenging. Atlas Cold Chain simplifies the process through professional project coordination.

Services include:

Management

PHARMACEUTICAL COLD STORAGE

Precision-controlled facilities for pharmaceutical and healthcare products.

Restaurants & Commissaries

Commercial refrigeration systems for food preparation and storage.

Beverage Distribution

Cold storage designed for beverage manufacturers and distributors.

Logistics & 3PL Warehouses

Integrated refrigeration solutions supporting modern supply chain operations.

Produce Warehouses

Fresh produce storage solutions that extend product shelf life.

TECHNICAL PARTNER NETWORK

We collaborate with qualified specialists throughout the Southeast to deliver dependable cold storage projects.

Our partner network includes:

[Industrial refrigeration contractors](#)

[Electrical contractors](#)

[Mechanical contractors](#)

[Preventive maintenance providers](#)

[Commercial HVAC firms](#)

[Insulated panel installers](#)

[Controls and automation specialists](#)

INDUSTRIES WE SERVE

Atlas Cold Chain supports businesses operating in temperature-sensitive industries.

Food Distribution

Modern cold storage facilities designed for efficient inventory management and food preservation.

Produce Warehouses

Fresh produce storage solutions that extend product shelf life.

Grocery Distribution Centers

Reliable refrigeration infrastructure supporting regional and national grocery supply chains.

Meat & Seafood Processing

Specialized freezing and cooling environments that meet industry standards.

COLD STORAGE SOLUTIONS

Custom solutions for diverse industries:

Frozen storage

(-10°F to -20°F)

Chilled storage

(32°F to 45°F)

Pharma-grade zones

High-density racking and automation

TRUSTED PARTNERSHIPS

We collaborate with:

Developers & investors

Food processors & distributors

Retail & e-commerce supply chains

Logistics & 3PL companies

Pharmaceutical & biotech firms

WHY CHOOSE ATLAS COLD CHAIN

Industry Expertise

Focused exclusively on cold storage and refrigeration infrastructure.

Fast Response

Quick engagement for facility assessments and project planning.

Extensive Contractor Network

Access to experienced technical professionals across the Southeast.

Quality-Driven Delivery

Helping clients minimize delays, reduce risk, and achieve successful project outcomes.

Complete Project Coordination

One point of contact from project planning through completion.

At Atlas Cold Chain, our people are the driving force behind everything we do. Our team is made up of dedicated professionals who share a passion for excellence, innovation, and reliability in cold chain logistics.

From warehouse specialists and operations personnel to logistics coordinators, engineers, quality assurance experts, and customer service professionals, every team member plays a vital role in ensuring temperature-sensitive products are stored, handled, and delivered with the highest standards of care.

We foster a culture built on integrity, collaboration, safety, and continuous improvement. By combining industry expertise with advanced cold storage technology, our team delivers dependable solutions that help preserve product quality and build lasting customer trust.

Together, we are committed to providing exceptional service, maintaining operational excellence, and setting new standards in the cold chain industry. At Atlas Cold Chain, we don't just store products—we protect quality, preserve value, and power our customers' success through teamwork and dedication.

COMPANIES WE HAVE WORKED WITH IN AFRICA

Over the years, we have worked with companies across diverse sectors, including food and beverage, agriculture, dairy, seafood, pharmaceuticals, retail, quick-service restaurants, and fast-moving consumer goods (FMCG). Our solutions are designed to support businesses that depend on consistent temperature control to maintain the integrity of their products.
